*"We got Mayson's lenses in her frames today and they ROCK!!! ... they fit her so nice and they seem to be comfortable on her so she isn't taking them off! She is actually looking through the lenses and not OVER them!!!"*  
- A. Fledge

*"They look FANTASTIC! So thank you, thank you for designing such a clever frame."*  
-L. Peterson, Australia

*Specs4us has designed a frame specially formatted to fit individuals with Down Syndrome and other people with low bridges. With a pair of Erin's World Frames your child will no longer be uncomfortable in their eye glasses. They will be able to explore the world freely and clearly without wearing glasses that are too big or are constantly slipping down their nose. These frames are made with your child's unique needs in mind and solve the problems that regular eyeglasses never could.*

### *Are You Tired of Your Child's Glasses...*

*So uncomfortable they won't wear them?*

*Looking too big?*

*Slipping?*

### *Why Erin's World Frames are Unique...*

*Custom designed with shortened temples, extra wide frame fronts and a lowered bridge. Made from titanium and memory flex that creates a flexible bridge and temples that spring out 180°.*

*Helping special children see the world clearly.*

*“As for Ezrie, she’s walked into a whole new world. She’s happier, she’s more hyper (oie!), and she’s babbling more... Books are more interesting now, and she has advanced according to her therapists, suddenly, as if over-night. I watched her flip completely upside down and then back up, and her glasses didn’t budge from her face. Transitioning her into wearing these glasses was easy...*

*ALL THANKS TO YOU!!!!”  
- L. O’Neil*

*Improving the sight and quality of life... one frame at a time.*
